## STANDARD LAP & HD2 LAP TRENCH SHEETS

Conquip Trench Sheets are available in standard lap & HD2 lap variations. They are predominately used for construction work and temporary deployment. The lightweight, overlapping trench sheet profiles ensure high strength to weight ratio to provide a safe environment for those working in excavations.

Typical applications include small trenches and excavations, including basements, sewerage, water, gas, or other services. They are particularly useful for when services cross.

### KEY BENEFITS

- Available in a variety of lengths to suit specific site requirements.
- Quick and easy to use and set up using Conquip’s Trench Sheet Driving Cap.
- Can be easily lifted and extracted using Conquip’s Trench Sheet Extractor.
