

USER GUIDE

CRANE FORKS

DISCLAIMER

Do not attempt to handle or operate this equipment before you have received sufficient training. Before use, operatives must have carried out all checks featured on the Visual Inspection Sheet on page 15. It is imperative that you have read the General Safety Instructions on page 16 and sufficiently familiarised yourself with the Operational Procedures in this document.

Note that this item is compliant only to the standards specified in this User Guide and it is therefore the duty of the responsible person(s) to review and ensure compliance.

INTRODUCTION

OVERVIEW

Conquip [Crane Forks](#) have been designed to lift packs of bricks and blocks. The unit has adjustable forks and hooks on the top arm of the frame; this allows a Safety Restraint Net to be attached to secure the load before it is lifted.

There are two models of Crane Forks – fixed height or telescopic height. Fixed height Crane Forks cannot be adjusted and are designed to lift standard height pallets. Telescopic Crane Forks can be adjusted to accommodate varying load heights, making them ideal for lifting larger pallets. The load height of these forks can be adjusted from 1100mm to 1600mm.

Conquip advises using the Crane Forks with the Crane Forks Cage for the safest, best practice lifting of materials at height. As a minimum, Crane Forks must be used with a Conquip Safety Restraint Net.

KEY BENEFITS

- Fully self levelling, even when unloaded, for a balanced lift and safe storage.
- Fixed height and telescopic (adjustable) height versions available.
- Adjustable height of the telescopic version accommodates varying load heights.
- Compatible with the Conquip Crane Forks Cage for fail-safe lifts.

SPECIFICATION

OPERATIONAL PROCEDURES

IMPORTANT USAGE NOTES

- Do not drag the load; this equipment is for lifting the load clear of the ground.
- The Crane Forks' unique design ensures that the load will always be kept level by the automatic self levelling suspension arm.
- Do not allow hands or feet to come between, or below, the forks and the load.
- Never use the Crane Forks without some method of restraint on the load. Conquip recommend the use of the Conquip Crane Forks Cage.

IN PREPARATION

01. Ensure the work area is clear of all obstructions.
02. Check that the Crane Forks are suitably rated to lift the load and are of the correct size.
03. Ensure there is adequate room around the unit for the operator to work safely.

SETTING UP THE CRANE FORKS

01. Attach the lifting equipment's hook to the suspension arm's lifting eye. Always ensure that the hook's gate is correctly closed.
02. Now adjust the position of the forks so that they will align with the particular size pallet that you will be lifting.
03. To adjust the fork position, release the collared eye bolt by turning anti-clockwise. Re-position the fork, then secure by turning the eye bolt clockwise.
04. Make sure that the forks are positioned at an equal distance from the centre line to prevent the load being unbalanced. Space the forks at the outermost point that the pallet allows, to give maximum stability as the load is lifted.

ADJUSTING TELESCOPIC CRANE FORKS HEIGHT

The telescopic height model can be adjusted to accommodate heights between 1100mm and 1600mm. It is always mandatory to adjust the Crane Forks to suit the load rather than keeping them at the highest setting.

To adjust the height, the unit must be attached to the lifting equipment. Follow these steps for adjustment.

01. Raise the lifting hook so that it is supporting but not lifting the suspension arm.
02. Remove the 'R' clip, then remove the main locking pin.
03. Have the lifting equipment raised, or lower the telescopic lifting frame, so that it is positioned at the height required.
04. Carefully insert the locking pin to the nearest locating hole, then replace the 'R' clip. Note: only use the original locking pin or 'R' clip fitted to adjust the Crane Forks.
05. Ensure the fork tines are positioned at an equal distance from the centre line to prevent the load being unbalanced.
06. The unit is now ready to use.

LIFTING WITH A CONQUIP CRANE FORKS CAGE

We advise using the Conquip Crane Forks in conjunction with the **Crane Forks Cage** for the fail-safe transportation of bricks, blocks and other palletised material. Refer to our website or contact Conquip for more information.

LIFTING WITH A CONQUIP SAFETY RESTRAINT NET

Nets are not designed to support the lift of a heavy or awkward load; they are to restrain the load from moving.

01. Set the forks to the correct width to suit the size of the pallet.
02. Secure any palletised load to the pallet, not simply sitting on it. The load must not be lifted without being secure.
03. Carefully manoeuvre the unit under the pallet with the forks inserted as far as they will go. The load length must not be greater than the forks.
04. Raise the load just above the ground and check that the load is central to the forks and correctly balanced.
05. Whilst the load is being held off the ground, fix the Safety Restraint Net. Wrap the net under and around the loaded Crane Forks and secure it to the hooks on the frame, not the safety handles. Only use the designated net supplied with the product.

06. Once the net is secured and the load is safe, proceed to move the load to its required position.

07. Move slowly and carefully; do not jolt the load.
08. When in position, lower the load until it is just above the ground.
09. Unhook the Safety Restraint Net from the hooks at the top of the Crane Forks and pull the net out from under the load. Do not enter the zone below the suspended load.
10. After removing the Safety Restraint Net, continue to lower the load to the ground. Do not lift again if the net has been removed.

11. Once lowered, move the Crane Forks backwards and clear of the pallet.
12. You can now proceed to the next load.
13. When all lifting has been completed and with the Crane Forks free of any load, lower it to the ground.
14. Release the lifting equipment's hook and move it clear. The Crane Forks will lay flat to the ground when not in use.

MAINTENANCE & INSPECTION

MAINTENANCE REGIME

- It is mandatory that the machinery equipment is thoroughly examined regularly, by a qualified engineer, to ensure compliance with relevant regulations. Conquip recommend carrying out a thorough examination every six months.
- This machinery may incorporate various loose and detachable items including, but not limited to pins, bolt assemblies and adaption plates. Refer to the separate requirements for the safe use of those items.
- When not being used, store the unit in a clean, upright condition and in a safe place where it will be protected from thieves and unauthorised users.
- This machinery must be inspected by the responsible person before each use and then regularly, as determined by your risk assessment or working practice. If you have any concerns about the equipment's condition or suitability, do not use it.

GENERAL SAFETY INSTRUCTIONS

The machinery should be properly operated and maintained to keep it in a safe, efficient operating condition. Be sure that all fixings and components are free of mud or other matter that might cause issues hazardous to the operator, serviceman, or other personnel or equipment. Report all malfunctions to those responsible for maintenance, and do not operate the equipment until corrected. Normal service or maintenance performed as required can prevent unexpected and unnecessary downtime.

This operations manual describes general inspections, servicing and operation with the normal safety precautions required for normal servicing and operating conditions. It is not a guide, however, for abnormal conditions or situations, and therefore, servicemen and operators must be safety conscious and alert to recognise potential servicing or operating safety hazards at all times, and take necessary precautions to assure safe servicing and operation of the machine.

GENERAL NOTES

- Read this operations manual and learn the operating characteristics and limitations of the machinery. Know what operating clearances the machine requires.
- Read and understand all the safety signs prior to operation.
- If the safety signs are obstructed by dirt or debris, clean them using mild soap and water prior to operation.
- If the safety signs are damaged or illegible, replace them immediately, prior to operation.
- Be aware of operating hazards that weather changes can create on the job. Know proper procedures to follow when a severe rain or electrical storm strikes.
- Never attempt to operate or work on machinery when not feeling physically fit.
- Never wear loose clothing, rings, watches, heavy gloves etc., that might catch and result in injury.
- Know what safety equipment is required and use it. Such equipment may be: hard hat, safety glasses, reflector type vests, protective gloves and safety footwear.
- Note: Conquip advises using the Crane Forks with the Crane Forks Cage for the safest, best practice lifting of materials at height. As a minimum, Crane Forks must be used with a Safety Restraint Net. Safety Restraint Nets are not designed to support the lift of a heavy or awkward load; they are to restrain the load from moving.
- Read our Safety Restraint Net Notice [here](#).

TERMS & CONDITIONS

CONQUIP ENGINEERING GROUP STANDARD PRODUCT WARRANTY

01. COMMENCEMENT

1.1 This Warranty shall commence on the Commencement Date and shall continue until the earlier of:

- (a) the Expiry Date; or
- (b) the date on which it may be voided in accordance with clause 4.1(b)

when it shall terminate automatically without notice.

02. DUTY OF GOOD FAITH

2.1 The Purchaser shall in the exercise of its rights under this Warranty and in the compliance with its obligations under this Warranty be subject to and shall in all respects owe and comply with a duty of good faith to the Warrantor.

03. NATURE AND EXTENT OF COVER

3.1 Subject to clause 3.2 the Warrantor agrees and undertakes to the Purchaser that it shall be liable to the Purchaser under and in accordance with the terms of this Warranty in the event that:

- (a) prior to the Expiry Date the Purchaser shall notify a Warranty Claim to the Warrantor; and
- (b) the Equipment or any relevant part of the Equipment shall have become unusable as the result of defective material or defective workmanship prior to the Expiry Date.

3.2 The Warrantor's obligation under clause 3.1 shall be expressly subject to the provisions of clauses 4, 5 and 6 and conditional upon the Purchaser's compliance in full with the provisions of clause 7.

04. RESTRICTIONS

4.1 The following restrictions apply to this Warranty:

(a) This Warranty is personal to the Purchaser and neither the legal benefit nor legal burden of this warranty may be assigned or novated or otherwise transferred by the Purchaser to any other party. Any purported assignment, novation or transfer shall not be binding upon the Warrantor.

(b) This Warranty shall be void in the event that the Purchaser:

(i) cannot provide authentic and original documentary evidence that the Purchaser has during the period between the Commencement Date and the Expiry Date complied with the Maintenance and Servicing Requirements; and/or

(ii) has, during the period between the Commencement Date and the Expiry Date, exceeded the Purchaser's Usage Cycle Parameters; and/or

(iii) has, during the period between the Commencement Date and the Expiry Date, exceeded the Purchaser's Use Parameters; and/or

(iv) has carried out, or procured the carrying out by any third party of, any repair to the Equipment or any part of the Equipment which is not an Authorised Repair; and/or

(v) has operated the Equipment after having replaced any part of the Equipment with a part which has not been supplied and fitted by the Warrantor; and/or

(vi) has modified the Equipment in any way prior to use.

05. EXCLUSIONS

5.1 The following are excluded from the scope of this Warranty:

(a) Loss of and/ or damage to the Equipment or any part of it resulting from any collision between the Equipment and any other fixed or stationary or mobile object whatsoever, irrespective of whether that collision was or was not caused by the Purchaser; and/or

(b) Loss of and/or damage to any personal property and/or possessions or other equipment not forming part of the Equipment but which is present in or about the Equipment; and/or

(c) loss and/or damage which is covered by any other insurance policy taken out and maintained by the Purchaser or in respect of which the Purchaser has a contractual obligation to do so; and/or

(d) loss and/or damage to the equipment which is consistent with the use by the Purchaser of the Equipment:

(i) in compliance with the Maintenance and Servicing Requirements; and

(ii) in compliance with the Usage Cycle Parameters; and

(iii) in compliance with the Use Parameters; and

(iv) having only carried out Authorised Repairs to the Equipment; and

(v) having all and any replacement parts fitted by the Warrantor; and

(vi) in unmodified form.

06. LIMITATION OF LIABILITY

6.1 The Warrantor's liability to the Purchaser shall be limited as follows:

- (a) The Warrantor shall not in any circumstances be liable to the Purchaser for indirect and/or consequential and/or economic loss suffered and/or incurred as the case may be by the Purchaser; and
- (b) The Warrantor shall only be liable to the Purchaser for the reasonable and proper costs reasonably and properly incurred by the Purchaser directly in connection with the repair and/or replacement (at the Warrantor's absolute discretion) of the Equipment or any part of the Equipment; and
- (c) The Warrantor's liability to the Purchaser shall notwithstanding any other provision of this Warranty, not in any circumstances exceed the Purchase Price of the Equipment.

07. WARRANTY CLAIMS

7.1 The Purchaser shall in respect of any claim against the Warrantor under this Warranty and within 24 hours of the occurrence of the subject matter of the Warranty Claim:

- (a) Complete in full and submit to the Warrantor a Warranty Claim in the form annexed to Schedule 4;
- (b) Provide date stamped or date identifiable photographs evidencing the claim; and
- (c) Make the Equipment or the relevant part of the Equipment available to the Warrantor for inspection within 48 hours of notification of the relevant Warranty Claim.

08. ENTIRE AGREEMENT

8.1 This Warranty constitutes the entire agreement between the parties and supersedes and extinguishes all previous promises, assurances, warranties, representations and understandings between them, whether written or oral, relating to its subject matter.

8.2 Each party agrees that it shall have no remedies in respect of any statement, representation, assurance or warranty (whether made innocently or negligently) that is not set out in this Warranty. Each party agrees that it shall have no claim for innocent or negligent misrepresentation or negligent misstatement based on any statement in this Warranty.

No variation of this Warranty shall be effective unless it is in writing and signed by the parties (or their authorised representatives).

09. WAIVER

No failure or delay by a party to exercise any right or remedy provided under this Warranty or by law shall constitute a waiver of that or any other right or remedy, nor shall it prevent or restrict the further exercise of that or any other right or remedy. No single or partial exercise of such right or remedy shall prevent or restrict the further exercise of that or any other right or remedy.

10. SEVERANCE

10.1 If any provision or part-provision of this Warranty is or becomes invalid, illegal or unenforceable, it shall be deemed deleted, but that shall not affect the validity and enforceability of the rest of this Warranty.

10.2 If any provision or part-provision of this Warranty is deemed deleted under clause 10.1 the parties shall negotiate in good faith to agree a replacement provision that, to the greatest extent possible, achieves the intended commercial result of the original provision.

11. THIRD PARTY RIGHTS

11.1 This Warranty does not give rise to any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Warranty.

12. GOVERNING LAW

12.1 This Warranty and any dispute or claim (including non-contractual disputes or claims) arising out of or in connection with it or its subject matter or formation shall be governed by and construed in accordance with the law of England and Wales.

13. JURISDICTION

13.1 Each party irrevocably agrees that the courts of England and Wales shall have exclusive jurisdiction to settle any dispute or claim (including non-contractual disputes or claims) arising out of or in connection with this Warranty or its subject matter or formation.

DESIGN CONFORMITY (EC & UK)

(01) This certificate meets the requirements of the Machinery Directive 2023/42/EC of the European Parliament and Council.

(02) This certificate meets the requirements of the Supply of Machinery (Safety) Regulations 2008.
