

CANTIDECK

A SAFER, FASTER, MORE EFFICIENT
ALTERNATIVE TO SCAFFOLDING

IT'S A **TEMPORARY LOADING PLATFORM**

Load in and out of the building structure efficiently & quickly.

Overcome risks of loading on scaffolding across range of applications.

CANTIDECK[®]
BY CONQUIP[®]

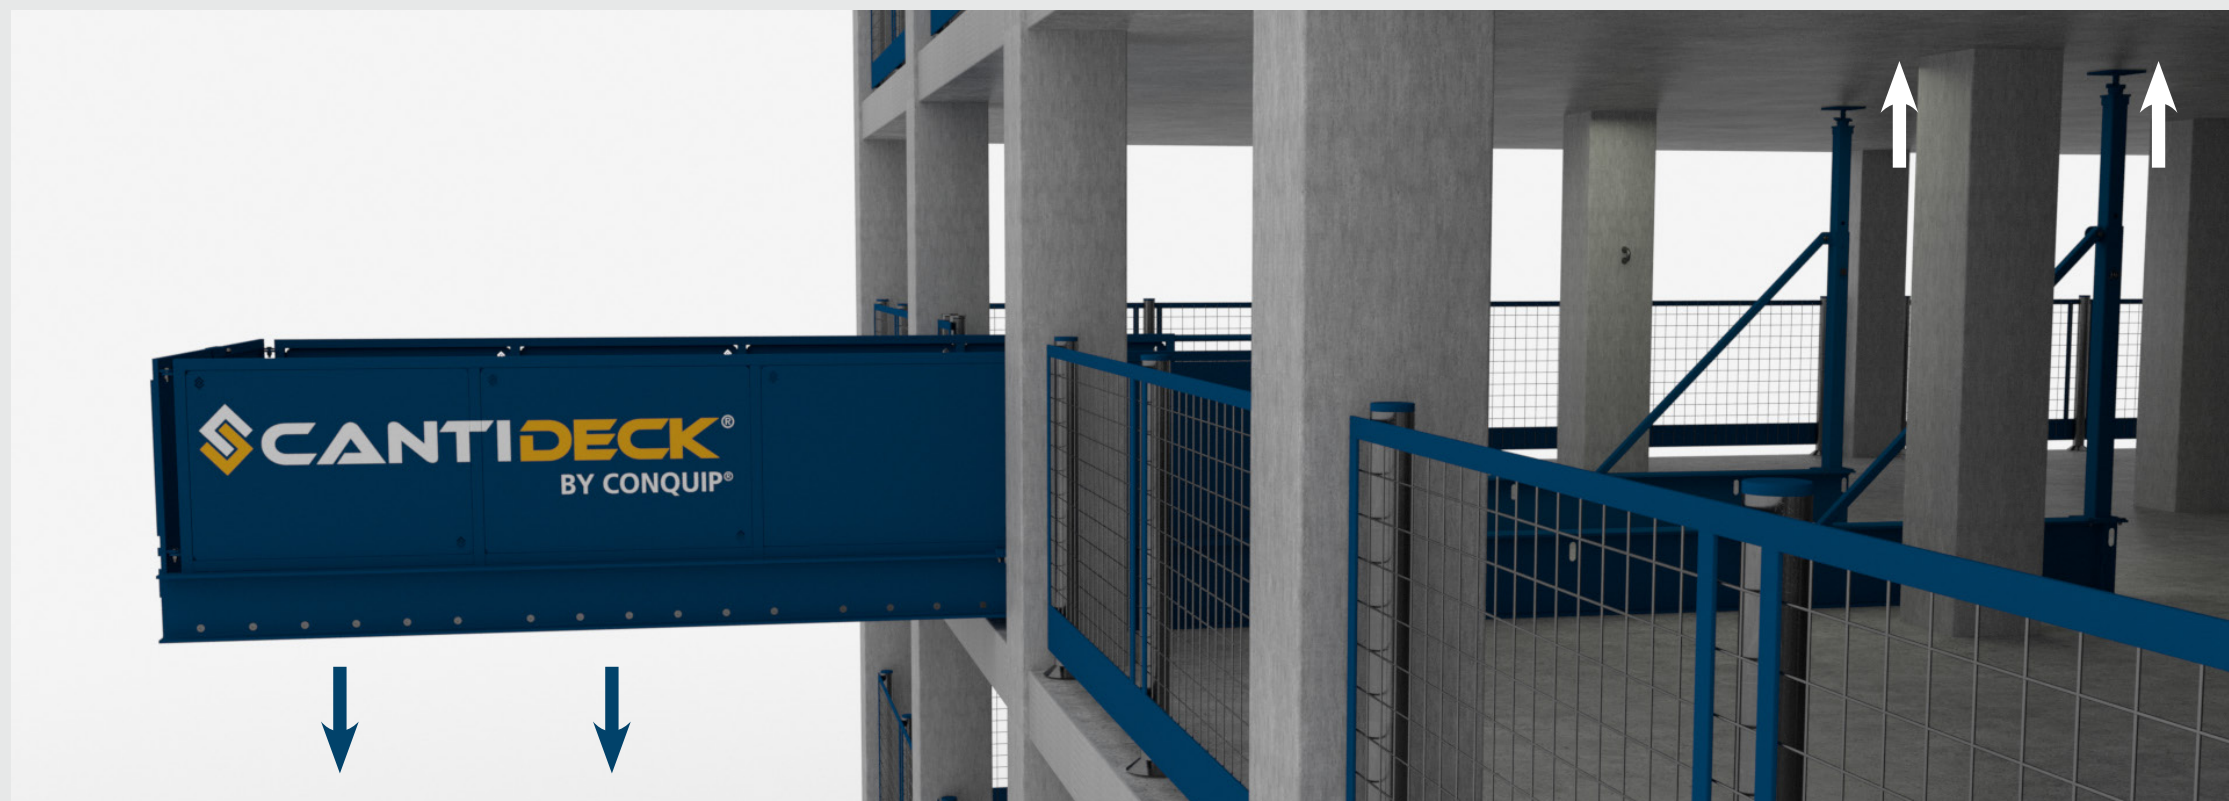

HOW IT WORKS

01 / Deck is crane lifted off the back of the truck.

02 / Platform is lifted into position.

03 / A simple propping mechanism secures the deck into the structure.

04 / CantiDeck makes building loadout look easy.

MORE THAN JUST A 'DECK'

SUPER ROLLER

Multi-deck stacked installation with fully retractable rolling decks.

[VIEW PRODUCT](#)

FIXED FLUSH

Smooth 'flush' transition from building floor to the loading area.

[VIEW PRODUCT](#)

WHAT CAN IT DO?

- Up to 16.2m² loading area.
- Can hold up to 8 metric tonnes.
- Great for access as well.
- Bespoke sizes available.
- Various installation configurations.

WHERE CAN YOU USE IT?

STEEL FRAMES

CONCRETE STRUCTURES

UNDERGROUND and more...

IS IT GOING TO WORK FOR ME?
